COLLABORATING FOR A BETTER FUTURE IN ORTHOPAEDIC CARE

Introduction:

Medical Aid International and the British Orthopaedic Association (BOA) have joined forces to make a significant impact in the field of orthopaedic care in low and middle income countries (LMICs). This collaboration aims to increase access to quality surgical instruments in order to enhance patient outcomes in orthopaedic surgeries. We invite you to be a part of this meaningful partnership by donating orthopaedic instruments to make a tangible impact on the lives of those in need.

How you can help:

We are particularly interested in the following:

- Small and large fragment instrument sets
- Complete power tool sets with batteries and charger
- Bone holders
- Osteotomes
- Gouges
- Bone cutters and nibblers
- Retractors
- General surgical instruments
- Reduction forceps
- Amputation saws
- Mallets
- Periosteal elevators
- Dissectors / curettes
- Bone levers
- Plastic surgery instruments
- Burr hole / craniotomy instruments
- Intramedullary reamers

Also required: Furnishings such as patient trolleys, drip stands, general operating room furnishing, and more help ensure safe surgery can be performed in a comfortable and functional environment.

*Please note that we do not accept implant donations at this time.

Get Involved Today:

To donate your orthopaedic instruments or for more information about this collaboration, please email Tim Beacon, CEO, Medical Aid International at: Tim@Medaid.co.uk

Thank you for your generous support in advancing orthopaedic care and making a positive difference in the lives of patients around the world.

Why Collaboration Matters:

- 1. Strengthening Global Healthcare:** By combining the expertise of Medical Aid International and the BOA, we can extend the reach of orthopaedic care to underserved regions worldwide. Your contribution will help us equip medical professionals with the tools they need to perform life-changing surgeries.
- 2. Sustainable Solutions:** Collaborative efforts enable the responsible reuse of high-quality orthopaedic instruments, reducing waste and promoting a more sustainable healthcare system. By donating your instruments, you can play a vital role in extending their lifecycle and maximising their impact.
- 3. Empowering Local Communities:** The collaboration between Medical Aid International and the BOA empowers local healthcare providers to deliver high-quality orthopaedic care in their communities. By donating your instruments, you can directly support the skill development and capacity building of medical staff in resource-limited settings.

Recycled orthopaedic instruments in use at Gondar University Hospital, Ethiopia, a Leicester Gondar Orthopaedic Partnership (LGOP) project, equipped by Medical Aid International.
