

IN PARTNERSHIP WITH

ABOUT JOINT OPERATIONS

Founded in January 2015, Joint Operations was set up to bridge suppliers of innovative healthcare technologies and clinical teams working within joint preservation.

As techniques evolve in the fast-moving area of orthopaedics known as joint preservation, we provide clinicians with the latest options, product advice and procedural knowledge to help patients with damaged cartilage or early arthritis avoid joint replacement.

In 2020 we partnered with BREG, world leaders in cryotherapy and orthopaedic bracing. This unites our surgical and non-operative portfolio, reinforcing our focus on joint preservation for the patient.

ABOUT BREG

BREG provides easy to use products to improve the experience of the orthopaedic episode. BREG helps to simplify orthopaedic patient care by delivering high quality products and comprehensive partnerships.

Founded in 1989 as a sports medicine company specialising in bracing and cold therapy, BREG built its reputation on customer care. The company's ultimate goal is to create remarkably easy solutions that give valuable time back to providers and patients alike to focus on what's most important.

FOOT & ANKLE SOLUTIONS

Walker Boots

Plantar Fasciitis Night Splint

Achilles Wedge

Cold Compression Therapy

DRC/JOPBF&A001/022023

GENESIS Walker Boot

The Genesis hard shell walker is the lightest full shell pneumatic walker on the market. Provides strength where required while eliminating extra weight

It uses a dynamic air chamber in the heel of the tread which actively absorbs the shock of heel strike and allows for a more comfortable walking experience.

Common Examples of Use

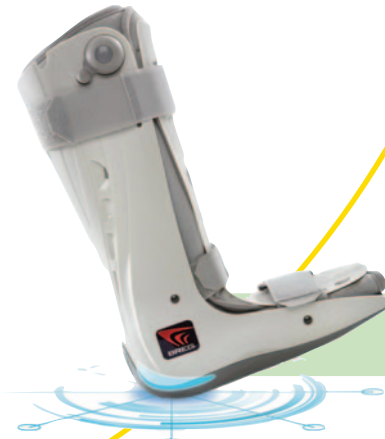

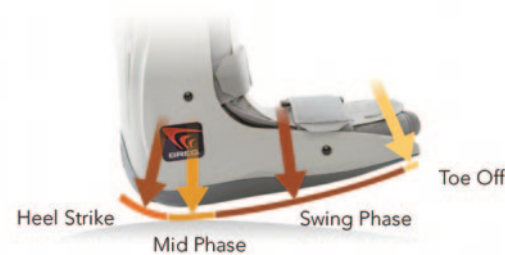

- Ankle sprains and strains
- Forefoot sprains
- Stable foot fractures
- Distal tibial fractures

Product Features

- Built-in air pump
- Durable hard shell design
- Narrow heel width
- Dual air chambers
- Dynamic air stride technology

A mid-calf version of the cutting-edge Genesis Full Shell Walker that includes all of the same great features. Ideal for those patients who require comfortable foot support

Plantar Fasciitis Night Splint

The Plantar Fasciitis Night Splint features a soft, breathable interior for all night comfort. Its adjustable bilateral straps allow for a controlled and prolonged stretch

Common Examples of Use

- Plantar fasciitis
- Achilles tendonitis
- Drop foot
- Post-static pain

Product Features

- Lightweight design
- Thick, comfortable padding
- Slip-resistant sole
- Toe wedge included
- Adjustable, padded straps

CONFORMER Walker Boot

Out-performs the Total Contact Cast in reducing pressure – 30% less peak pressure.* The technologically advanced auto-mold™ foam holds shape to the buttress of the foot and prevents movement that can break down the skin

* Pollo, Fabian PhD, Brodsky, James MD, Crenshaw, Stephanie M.S., Kirksey, Chris B.S., "Plantar Pressures in Fiberglass Total Contact Casts vs. a New Diabetic Walking Boot" Foot and Ankle International, January 2003.

Common Examples of Use

- Sensate and non-sensate patients
- Ulcerative / pre-ulcerative conditions
- Diabetic patients
- Ankle joint instability

Product Features

- Dual density mid-sole foam promotes perimeter loading
- Moulded inner liner encases the foot and lower leg
- Diabetic sock included

VPULSE® Cold Therapy

A convenient, compact and simple system for hospital and home use

The VPULSE® cold compression therapy system is designed to help reduce pain and swelling by providing a continuous flow of cold therapy via an anatomically designed pad.

Product Features

- Easy to operate
- No additional barrier needed
- Compact design
- Quiet pump technology

Genesis Achilles Wedge

The Genesis Achilles Wedge is designed to comfortably place the foot in plantar flexion to offload the achilles tendon during rehabilitation

Product Features

- Distinctive design disperses body weight evenly across the foot, eliminating pressure points
- Polypropylene wedge material provides rigid support
- Comfort pad places the foot at ease and on a soft surface
- Includes a forefoot and ankle extension strap to fit various sizes of walker boots
