**The Digital Hospital**

Medbelle Care Programme

# Medbelle Care Programme

The new standard in private care for non-insured patients

The Medbelle Care Programme was inspired by our belief that surgeons should have control over their own practices. By booking patients for surgery through the Medbelle Care Programme, you track patient outcomes seamlessly and ensure you and your patients receive a first-class service at no additional cost.

# What your patients receive

## **Dedicated one-to-one support from your Care Adviser throughout**

If you choose, we provide each patient a dedicated Care Adviser on hand to give one-to-one support, answer patient questions, book any appointments, and manage all of the necessary admin work. We adapt this service to you.

## **Free access to virtual consultations with a Private GP**

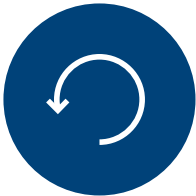

In your patient's one-year membership, they can receive speedy primary care at with a trusted professional

## **Patient Portal**

Treatment information, upcoming appointments, and simple payment options all accessible in one place

# What consultants receive

## **Medbelle OS and Outcome tracking**

Our powerful Practice Management software keeps all patient information securely stored in one place, including, digital imaging, voice transcription clinic letters, smart diary system, Patient Outcome tracking, and more

## **A contribution towards your indemnity**

On top of your own self-pay fee, Medbelle pays an additional contribution towards the cost of your indemnity

## **Build your brand**

Utilise Medbelle skills and technology to grow your practice
