

Meet Dr Rishi

MBChB BSc (hons) FRCS Orth (Eng)

Teaching is a unique art and each student, with their own individual needs, strengths and weaknesses, presents a unique challenge. The greatest excitement I get is taking on the challenge of new students every day, adapting my teaching style to suit their needs. My aim is to help them grow, take on challenges no matter how difficult they may be and realise their potential to produce great results. Above all my motto is 'there is no such word as impossible'.

"The ultimate answer to FRCS revision. This is core subject presented in a logical and systematic fashion making it easy to understand and assimilate. A must for anybody attempting the exam."

Toby Baring - Ortho Consultant

"Rishi provides a tour de force in Orthopaedic viva preparation. As an educator, he is full of energy and insight. His course content is topical and on point. In my opinion, this is one of the best value FRCS preparatory experiences out there."

Emmett O'Flaherty

"I really like the way he simplifies things into key buzzwords that the examiner wants... everyone should try sessions with Rishi"

Ogo Oghofori - Orthopaedic Registrar
