**The Digital Hospital**

Medbelle Care Programme

# Medbelle Care Programme

The new standard in private care for non-insured patients

The Medbelle Care Programme is a benefits programme that ensures patients receive the best support and experience. Track patient outcomes seamlessly and ensure your patients receive a first-class service. A true partnership that prioritises you and your patients.

# What your patients receive

## **Dedicated one-to-one support from your Care Adviser throughout**

If you choose, we provide each patient a dedicated Care Adviser on hand to give one-to-one support, answer patient questions, book any appointments, and manage all of the necessary admin work. We adapt this service to you.

## **Free access to virtual consultations with a Private GP**

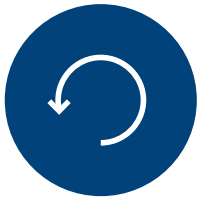

In your patient's one-year membership, they can receive speedy primary care with a trusted professional

## **Patient Portal**

Treatment information, upcoming appointments, and simple payment options all accessible in one place

# What consultants receive

## Medbelle OS and Outcome tracking

Our powerful Practice Management software keeps all patient information securely stored in one place, including, digital imaging, voice transcription clinic letters, smart diary system, Patient Outcome tracking, and more

## A contribution towards your indemnity

On top of your own self-pay fee, Medbelle pays an additional contribution towards the cost of your indemnity

## Greater control over your practice

Empowering consultants in a more favourable and sustainable partnership.
