DONJOY[®]
X-ROM[™]

EASY-TO-USE POST-OP ROM PROTECTION WITH FAST APPLICATION AND COMFORTABLE STABILITY.

DonJoy's new easy-to-use post-op knee brace offers fast, simple application and adjustment through innovative strap, tab and buckle designs.

The user-friendly X-ROM™ helps control and protect ROM with a quick-lock design and hinge pull-out stops. With four independently telescoping sliders and the ability to contour to the patient's leg to aid varus and valgus support, the X-ROM comfortably accommodates a wide range of patient shapes and sizes.

INDICATIONS

To aid immobilization and protected range of motion associated with ACL, PCL, LCL, and MCL surgeries and meniscal repairs.

PRECISE ROM PROTECTION

- Updated hinge design: precisely control ROM with settings in 10° increments from -10° to 90° extension and -10° to 120° flexion
- Quick-lock design: easily lock at 10° increments from -10° to 30°

FAST, EASY APPLICATION

- Easy-to-use design: strap, tab and buckle design makes post-op application and adjustment fast and simple
- Comfortably fits a wide range of patients: easily accommodate patients from 4'11" to 6'5"
- Push button slider settings: adjustments are easy and precise
- Ready to fit: quickly fit patients right out of the box

COMFORTABLE STABILITY

- Tele-Fit™ technology: four independently telescoping sliders with easy push button control settings help enhance brace placement, stability and comfort while avoiding the incision and peroneal nerve
- Optimal fit and stability: bendable hinge bars help enhance varus/valgus contouring
- Secure contact points: enhanced ankle pads and strategically placed contact points between the leg and brace help reduce slippage
- Lightweight strength: strong yet lightweight (842g) design helps reduce brace migration
- Anti-microbial pads: helps neutralize odor while increasing comfort and durability
